

Teisten – Booking Form

RIS:

This form helps us to prepare the booking and reduce the email traffic in preparation of the field period. Please fill it out and send it to: laboratories@kingsbay.no

First possible date on Teisten:

Last possible date on Teisten:

How many days do you plan to go out?

How many hours each time?

Are any of those days buffer days (e.g. bad weather), if yes, how many?

We will plan you in, according to the other bookings we have gotten. Priority is given to those, who have booked first. In case of bad weather the schedule will change and priority will be given to those groups who have booked first. At the end, you only pay for those hours, you have been out. Unless you want to reserve a period, then you would need to pay for the whole time period.

Please meet with the captain or come by at the Marine Laboratory, before sampling, so we can discuss the sampling with you and have a look at the weatherforecast.

What sampling are you planning?

Please mark the sampling equipment from Kings Bay you want to use (included in Teisten):

- SAIV SD 204 CTD (Conductivity, Temperature, Depth, Chlorophyll, Turbidity)
- WP2 Net 200 micron or WP2 Net 500 micron (You can only use one of them on each trip)
- WP3 Net 1000 micron
- Handnet 40 micron (da = 50 cm; l = 280 cm)
- Van Veen Grab 500 cm²
- Day Grab 1000 cm²
- 3×10 l Niskin Bottles
- Mechanical Flow Meter for Plankton Net
